P. O. Box 376
Majuro, Marshall Islands 96960

Dear Mr. Allen:

The enclosures to this letter are forwarded in response to your request during our recent meeting in Washington, D. C., for information on levels of radioactivity in Bikini soils.

With the exception of the February 1975 survey report, this package is identical in content to one which was furnished to Chips Barry in June 1974 in response to his letter of April 1974 to the Chairman, USAEC. Thus at least some of the material may be duplicated in your files.

Should you have questions regarding this material or if I may be of further assistance, please let me know.

Sincerely,
